

## **ENVIRONMENTAL POLICY**

Midland Cryogenics Limited recognises the importance of environmental protection and sustainability and is committed to operating its business responsibly and in compliance with all environmental legislation and regulations relating to the provision of its services.

MCL will carry out best practice to contribute to a sustainable environment.

This mission will be achieved by:

- Protecting the environment.
- Continually improving environmental performance.
- Assessing and regularly re-assessing the environmental effects of the Company's activities
- Assessing and minimising the environmental impact of plant, equipment and other assets through the life cycle including disposal.
- Training personnel in environmental and sustainability issues and awareness.
- Preventing pollution.
- Minimising the production of waste by implementing a hierarchy of control as elimination, reduction and recycling.
- Minimising energy use and CO2 emission.
- Eliminating, or where not practicable, reducing and/or limiting the production of pollutants to water, land and air.
- Controlling noise emissions and other nuisances arising from its operations.
- Operating sustainability practices by the use of renewable resources and promoting the use of recyclable and renewable materials.
- Only using authorised or registered organisation for disposal and transporting of waste.

CONTINUED.

To deliver these aims the company will:

- Commit sufficient resources to implement and maintain this policy.
- Implement through a documented management system including an Aspects and Impact analysis.
- Establish and monitor suitable objectives to determine the effectiveness of the policy.
- Review this policy annually, or before if required by events, for its continued suitability and effectiveness.

The legislation and standards which the company will address includes but is not limited to the Environmental Protection Act 1990

This policy is communicated to all employees, clients, suppliers and subcontractors and is made available to the public.

The Chief Executive Officer is responsible for the implementation of this policy and ensuring that it is effective in achieving the Company's aims and objectives.
